

Jin'an Bridge (9)

INTRODUCTION

The Jin'an Bridge is a [suspension bridge](#) near [Lijiang, Yunnan, China](#). At 461 m (1,512 ft), it is [the fourth highest bridge in the world](#). The bridge forms part of the [G4216 Chengdu–Lijiang Expressway](#) carrying traffic over the [Jinsha River](#). The bridge construction began in 2016, the structure closed in January 2020^[2] and it opened for traffic on 31 December 2020.^[3] The main span of the bridge is 1,386 m (4,547 ft).^[4]

The bridge crosses the river 1.4 km upstream from the [Jin'angqiao Dam](#). Due to the formation of the reservoir behind the dam, the full clearance to the original river level will not be visible.
