

Chishi Bridge

Chishi Bridge is located in Chishi Township, Yizhang County, Chenzhou City, Hunan Province, China. It is an important part of the Hunan Section of Xiamen-Chengdu Expressway (China Highway G76).

The Chishi Bridge started construction on March 28, 2010; the main bridge closure project was completed on June 3, 2016, and the bridge was fully connected; it opened to traffic on October 28, 2016.

The bridge is 7,457 ft (2,273 m), the main bridge is 4,823 ft (1,470 m) long, and the bridge body (tower) is 940 ft (286.6 m) tall. The bridge deck is a two-way 4-lane highway with a design speed of 80 km/h. Its total cost 1.3 billion yuan (US \$230 million).
